

The new year began in a similar vein to 2016. The early birds included Common Ragwort, Common Chickweed, Red Deadnettle and Ground Ivy with Winter Heliotrope and Primrose in bloom by the middle of January. Snowdrops appeared within the first week of February and Lesser Celandine and Winter Aconite only a week later. The plants were undoubtedly helped by a mild and wet winter, just as last year. The bluebells carpeted the floor in Burley Wood for the outdoor meeting at the end of April, but Barnsdale and Hambleton Woods also had magnificent displays. Another meeting, in May, at Merry's Meadows, coincided with the thousands of Green-winged Orchids there. The other predominately botanical meeting was at Seaton Meadows at the end of June where members surveyed defined squares of the area looking for certain species. Common Knapweed, Ox-eyed Daisy, Common Bird's-foot-trefoil, and Yellow Rattle show the extent of the relative drier parts of the site. The wetter areas have Great Burnet, Meadowsweet, Meadow Vetchling and Common Meadow Rue, whilst the border area, between the two has Marsh Marigold and Cuckoo-flower. *Plantlife*, the owners of the Meadows, carried out drainage work in the winter and this has made a difference as the survey showed. Clearing out the silt and improving the function of the ditches has really helped.

There were more species of vascular plants recorded this year than last, a total of 404. This was due to an assiduous group of recorders, 16 in all, although the work done by Martin Grimes counted for a considerable percentage of the total. There were some new species, new at least within the last dozen years. Annual Mercury was found on the sandy beach by the side of the reservoir at Sykes Lane carpark and had probably come with the loads of sand imported. This was Martin's find and he also reported Arrowhead – seen in the Welland at Tinwell. Narrow-leaved Pepperwort, a member of the *Brassicaceae*, was found on arable land north of Great Casterton and Thorn-apple, from the family *Solinaceae*, at Ketton.

There weren't many different species of Orchid this year; Early Purple, Common Spotted, Bee, a few Pyramidal, and Common Twayblade made up the list.

Mostly it was the common sites that were visited, but there were some new places, Wardley Wood, Ryhall Heath and Walk Farm in the east of the county, and the river meadows at Tinwell all provided contributions to the list. Records also came in from the verges between Exton and Empingham, the triangle near Bloody Oaks Quarry, the verge between Great Casterton and Pickworth and verge 5 north of Ryhall. We are, as ever, open to offers of more verge recording, and more records from anywhere in the county, please. There are many areas that don't figure in the lists, especially in the northwest of the county.

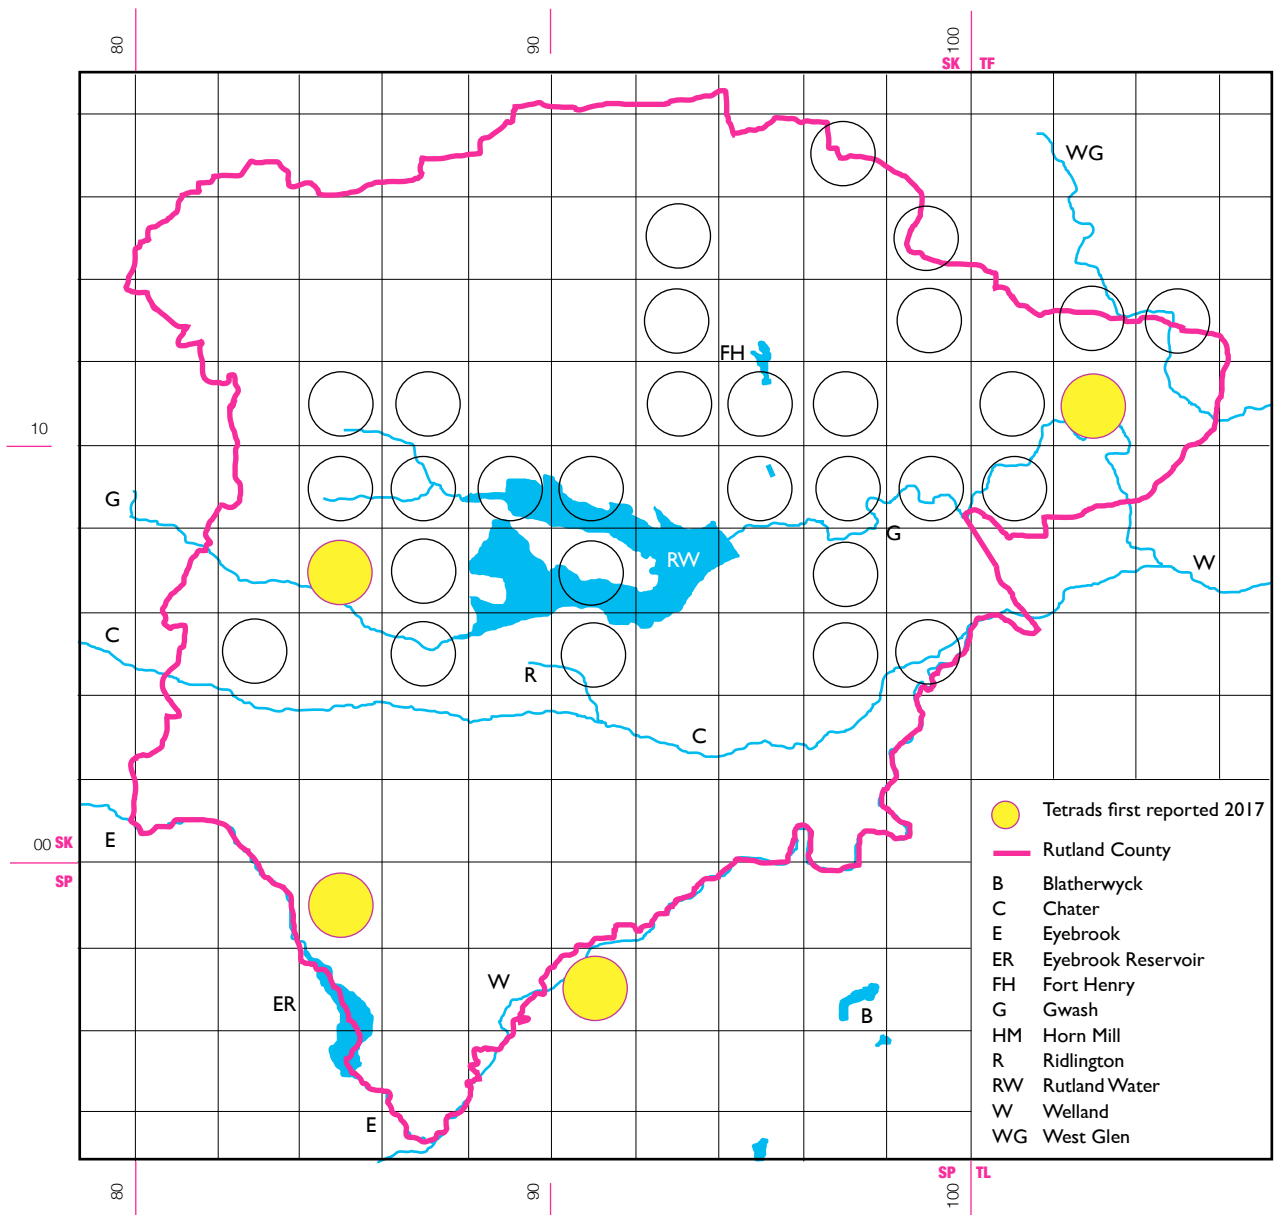

Reports compiled by John Rodgers

Tetrads with records, 2017

Scientific name	Common name	Location
<i>Ophioglossum vulgatum</i>	Adderstongue	MM
<i>Agrimonia eupatoria</i>	Agrimony	HambW, KQ, RyllH, v 4, 5, 16
<i>Alnus glutinosa</i>	Alder	BarnsW
<i>Chonopodium polyspermum</i>	All Seed	Lynd
<i>Trifolium hybridum</i>	Alsike Clover	GtCast
<i>Epilobium ciliatum</i>	American Willowherb	Lynd
<i>Persicaria amphibia</i>	Amphibious Bistort	Lynd
<i>Mercurialis annua</i>	Annual Mercury	RWNR
<i>Sagittaria sagittifolia</i>	Arrowhead	Tin
<i>Fraxinus excelsior</i>	Ash	Pick
<i>Gentianella amarella</i>	Autumn Gentian	BOQ, Clips
<i>Scorzonoides autumnalis</i>	Autumn Hawkbit	Walk, v 4
<i>Potentilla sterilis</i>	Barren Strawberry	BW, ClipYTA, CPW, PC, StretW
<i>Crepis vesicaria</i>	Beaked Hawksbeard	RyllH, v 5
<i>Ophrys apifera</i>	Bee Orchid	BOQ, KQ, Leigh, PW
<i>Stachys officinalis</i>	Betony	ClipYTA, CPW
<i>Fallopia convolvulus</i>	Black Bindweed	GtCast
<i>Tamus communis</i>	Black Bryony	RyllH
<i>Ballota nigra</i>	Black Horehound	Kett, v 4, 6
<i>Medicago lupulina</i>	Black Medick	GtCast, v 4, 6, 16
<i>Solanum nigrum</i>	Black Nightshade	Pilt
<i>Prunus spinosa</i>	Blackthorn	BOQ
<i>Silene vulgaris</i>	Bladder Campion	GtCast v 4
<i>Erigeron acer</i>	Blue Fleabane	RyllH QF KQ
<i>Hyacinthoides non-scripta</i>	Bluebell	BarnsW, BW, HambW, Lynd, PC, v 7
<i>Stellaria alsine</i>	Bog Stitchwort	Lynd
<i>Borago officinalis</i>	Borage	WW
<i>Pteridium aquilinum</i>	Bracken	BarnsLW
<i>Rubus fruticosus agg.</i>	Bramble	BarnsW, BOQ, HambW, Lynd, v4, 6, 16
<i>Sparganium erectum</i>	Branched Bur-reed	Lynd
<i>Helmanthoeca echioides</i>	Bristly Ox-tongue	Egl, HambW, KQ, v5
<i>Dryopteris dilatata</i>	Broad buckler	BarnsLW
<i>Rumex obtusifolius</i>	Broad-leaved Dock	Lynd
<i>Epilobium montanum</i>	Broad-leaved Willowherb	OakC
<i>Veronica beccabunga</i>	Brooklime	Lynd
<i>Orobanche elatior</i>	Broomrape	v 4
<i>Ajuga reptans</i>	Bugle	BarnsW, BW, CPW, Lynd, PC, v 4, 6, 16
<i>Ranunculus bulbosus</i>	Bulbous buttercup	Kald, v 4, 5,6, 16
<i>Typha latifolia</i>	Bulrush	Lynd, QF
<i>Pimpinella saxifraga</i>	Burnet Saxifrage	BOQ, QF

Scientific name	Common name	Location
<i>Vicia sepium</i>	Bush Vetch	Lynd, v 6
<i>Petasites hybridus</i>	Butterbur	WW
<i>Buddleja davidii</i>	Butterfly Bush	CQ
<i>Conyza canadensis</i>	Canadian Fleabane	Oak
<i>Solidago canadensis</i>	Canadian Goldenrod	KettA
